

Lakshay Pareek

UI/UX Designer — Product Designer — UI Designer

7340388021 | lakshaypareek1805@gmail.com | LinkedIn | GitHub

SUMMARY

UI/UX Designer and B.Tech Computer Science & Engineering student with hands-on experience designing digital products and responsive web interfaces. Skilled in user-centered design, wireframing, prototyping, interaction design, and visual hierarchy using Figma, with experience creating intuitive and visually consistent user experiences for web-based products.

SKILLS

UX Design: User-Centered Design, User Flows, Wireframing, Prototyping, Interaction Design, Responsive Design

UI Design: UI Design, Visual Hierarchy, Typography, Layout, Component-Based Design, Design Consistency

Design Tools: Figma, Framer, WordPress

EXPERIENCE

VIDHINAAD

vidhinaad.com

UI/UX Designer

- Designed a responsive legal-firm website with clear information architecture, navigation, page hierarchy, typography, and visual consistency.
- Designed reusable UI components and responsive layouts across Home, About, Services, Partners, Contact, Privacy, and Disclaimer experiences.
- Created interactive page experiences with clear calls to action, feedback states, page transitions, and micro-interactions to support a consistent user experience.

PROJECTS

CRIMENET AI

crimenet-ai.vercel.app

UI/UX Designer

- Designed an investigator-focused intelligence platform that organizes cases, historical records, entities, relationships, locations, timelines, and investigative leads within a centralized workflow.
- Structured complex investigative information into dashboards, entity-resolution views, relationship graphs, GIS views, reports, and evidence panels.
- Designed Explainable AI interactions that surface supporting, contradicting, and missing evidence alongside lead confidence and source provenance.

TRAK TWIN

UI/UX Designer

- Designed a travel companion product centered on destination discovery, traveller matching, shared trip planning, community interaction, and safety.
- Structured end-to-end product flows covering onboarding, travel-profile creation, discovery, companion matching, trips, messaging, safety, and post-trip feedback.
- Designed interaction patterns for communicating traveller compatibility through preferences, destinations, dates, and travel style.

EDUCATION

SKIT, Jaipur

Sept 2023 – Present

B.Tech in Computer Science & Engineering

Maheshwari Public School, Jaipur

Mar 2021 – Mar 2023
